

Federal Acquisition Regulation

38.000

(2) Measurable performance standards (*i.e.*, in terms of quality, timeliness, quantity, etc.) and the method of assessing contractor performance against performance standards; and

(3) Performance incentives where appropriate. When used, the performance incentives shall correspond to the performance standards set forth in the contract (see 16.402-2).

(c) See 12.102(g) for the use of Part 12 procedures for performance-based acquisitions.

37.602 Performance work statement.

(a) A Performance work statement (PWS) may be prepared by the Government or result from a Statement of objectives (SOO) prepared by the Government where the offeror proposes the PWS.

(b) Agencies shall, to the maximum extent practicable—

(1) Describe the work in terms of the required results rather than either “how” the work is to be accomplished or the number of hours to be provided (see 11.002(a)(2) and 11.101);

(2) Enable assessment of work performance against measurable performance standards;

(3) Rely on the use of measurable performance standards and financial incentives in a competitive environment to encourage competitors to develop and institute innovative and cost-effective methods of performing the work.

(c) Offerors use the SOO to develop the PWS; however, the SOO does not become part of the contract. The SOO shall, at a minimum, include—

- (1) Purpose;
- (2) Scope or mission;
- (3) Period and place of performance;
- (4) Background;
- (5) Performance objectives, *i.e.*, required results; and
- (6) Any operating constraints.

37.603 Performance standards.

(a) Performance standards establish the performance level required by the Government to meet the contract requirements. The standards shall be measurable and structured to permit an assessment of the contractor's performance.

(b) When offerors propose performance standards in response to a SOO,

agencies shall evaluate the proposed standards to determine if they meet agency needs.

37.604 Quality assurance surveillance plans.

Requirements for quality assurance and quality assurance surveillance plans are in Subpart 46.4. The Government may either prepare the quality assurance surveillance plan or require the offerors to submit a proposed quality assurance surveillance plan for the Government's consideration in development of the Government's plan.

PART 38—FEDERAL SUPPLY SCHEDULE CONTRACTING

Sec.

38.000 Scope of part.

Subpart 38.1—Federal Supply Schedule Program

38.101 General.

Subpart 38.2—Establishing and Administering Federal Supply Schedules

38.201 Coordination requirements.

AUTHORITY: 40 U.S.C. 121(c); 10 U.S.C. chapter 137; and 51 U.S.C. 20113.

38.000 Scope of part.

This part prescribes policies and procedures for contracting for supplies and services under the Federal Supply Schedule program, which is directed and managed by the General Services Administration (see Subpart 8.4, Federal Supply Schedules, for additional information). GSA may delegate certain responsibilities to other agencies (*e.g.*, GSA has delegated authority to the Department of Veterans Affairs (VA) to procure medical supplies under the VA Federal Supply Schedules Program). The VA Federal Supply Schedules Program is covered by this subpart. Additionally, the Department of Defense manages a similar system of schedule contracting for military items; however, the Department of Defense systems are not a part of the Federal Supply Schedule program.

Subpart 38.1—Federal Supply Schedule Program

38.101 General.

(a) The Federal Supply Schedule program, pursuant to 41 U.S.C. 152(3), provides Federal agencies with a simplified process of acquiring commercial supplies and services in varying quantities while obtaining volume discounts. Indefinite-delivery contracts are awarded using competitive procedures to firms. The firms provide supplies and services at stated prices for given periods of time, for delivery within a stated geographic area such as the 48 contiguous states, the District of Columbia, Alaska, Hawaii, and overseas. The schedule contracting office issues Federal Supply Schedule publications that contain a general overview of the Federal Supply Schedule (FSS) program and address pertinent topics.

(b) Each schedule identifies agencies that are required to use the contracts as primary sources of supply.

(c) Federal agencies not identified in the schedules as mandatory users may issue orders under the schedules. Contractors are encouraged to accept the orders.

(d) Although GSA awards most Federal Supply Schedule contracts, it may authorize other agencies to award schedule contracts and publish schedules. For example, the Department of Veterans Affairs awards schedule contracts for certain medical and non-perishable subsistence items.

(e) When establishing Federal Supply Schedules, GSA, or an agency delegated that authority, is responsible for complying with all applicable statutory and regulatory requirements (*e.g.*, Parts 5, 6, and 19). The requirements of parts 5, 6, and 19 apply at the acquisition planning stage prior to issuing the schedule solicitation and, generally, do not apply to orders and BPAs placed under resulting schedule contracts except see 8.404 and 8.405–5.

Subpart 38.2—Establishing and Administering Federal Supply Schedules

38.201 Coordination requirements.

(a) Subject to interagency agreements, contracting officers having responsibility for awarding Federal Supply Schedule contracts shall coordinate and obtain approval of the General Services Administration's Federal Supply Service (FSS) before—

- (1) Establishing new schedules;
- (2) Discontinuing existing schedules;
- (3) Changing the scope of agency or geographical coverage of existing schedules; or
- (4) Adding or deleting special item numbers, national stock numbers, or revising their description.

(b) Requests should be forwarded to the General Services Administration, Federal Supply Service, Office of Acquisition (FC), Washington, DC 20406.
